

SERVING BUSINESSES THROUGHOUT CENTRAL TEXAS

Keep your employees trained. Keep your records current.

Live Oak Safety helps Central Texas businesses coordinate workplace safety training and manage employee certification records — so your team stays prepared without adding another administrative burden.

Training Coordination

- First Aid, CPR, and AED
- Bleeding control & emergency trauma response
- Bloodborne pathogens
- Workplace violence awareness
- Conflict de-escalation
- Additional programs based on your needs

Certification Management

- Employee training records
- Completion and expiration dates
- Certificate and credential documents
- Course rosters and attendance
- Training history by employee or location
- Upcoming renewal requirements

Expiration Alerts & Renewals

- Monitor all upcoming expiration dates
- Identify employees due for renewal
- Recommend the appropriate course
- Coordinate a qualified instructor
- Schedule the on-site session
- Update records after completion

HOW IT WORKS

1

Tell us what your team needs

We review your workforce, locations, existing records, and training goals.

2

We coordinate the training

Live Oak Safety locates a qualified provider and organizes scheduling and course details.

3

Your employees complete the course

Training is delivered at your workplace by a qualified instructor.

4

We keep everything current

Records are organized and renewal reminders go out before the next deadline.

WHY LIVE OAK SAFETY

Less searching. More doing.

- One point of contact for training and renewals
- Organized employee certification records
- Flexible support for small and growing businesses
- Local coordination throughout Central Texas
- Proactive expiration reminders
- No need to find a new instructor every cycle
